Re: 89A-WF-9251056, 06/23/2016

caller began talking to me saying he has called many congressional offices, but they all hung up on him. The caller had a southern, raspy twang to his voice. The caller was a middle aged male. The caller told me he really had something to say about the sit-in and gun control. I told him that I would listen to him and that he should share his concerns. He went on to ask me, along with other questions, "Do you believe that Muslims kill people? Do you believe that Muslims are the problem with the world?" I responded and said, "No, I do not think that Muslims are the problem."

He then went on to debate my response and started to show signs of growing anger. I could hear fragments of a woman over the phone speaking other points for the caller to bring up to me about gun control. Out of nowhere, the caller then begins to threaten me by saying, "Since your congressman believes that guns kill people I will show him that people kill with guns. My wife and I will prove that people kill with guns by buying an AK-47."

I started to try and get his name but he would not stop talking. He then said," I will shoot you dead between the eyes." I proceeded to warn the caller if he continued to threaten me that I would be unable to continue the call. The caller ignored me and kept talking about how he was going to kill me. I then hung up the phone."
